

THIRD AURORA WOMAN KILLED DURING NIGHT

MISS EMMA PETERSON, AGED 21,
WAS CLUBBED TO
DEATH.

BLOODHOUNDS ON THE TRAIL

Gas Pipe and Glove Found Near
Scene of the Brutal
Murder.

(Associated Press)

Aurora, Ill., Feb. 26.—An old wool-
en glove was given to bloodhounds
today in the hope of solving the mur-
der last night of Miss Emma Peter-
son, aged 21, the third woman to be
clubbed to death in Aurora within a
year.

In Fashionable District.

The glove and a piece of gas pipe
were found within half a block of the
place where the woman was killed, in
the fashionable Lake street district.
Her handbag, rifled, was found on the
Northwestern tracks.

Picked Up Scent.

Followed by thousands the blood-
hounds picked up the scent from the
glove and galloped in a circuitous
route which led to the Fox river, at
which place the trail was temporarily
lost.

"Great, Tall Man."

As in the case of the murder of
Miss Jennie Miller, the daughter of a
former mayor, "a great, tall man,
wearing a long overcoat" is being
sought.

Stood Over Body.

A man, answering this description,
stood over the body of Miss Peterson,
according to Miss Eliza Calkins, who
ran to her window when she heard a
scream.

This is the third murder of a woman
that has occurred in Aurora,
since the body of Theresa Hollander
was found clubbed to death in a cem-
etery on Feb. 16, 1914. For her mur-
der Tony Petras was tried twice, and
finally acquitted.

WILL INVITE ALL MOTORISTS TO DIXON

JUNIOR BRANCH CITIZENS' ASSO-
CIATION TO ADVERTISE
"MOTOR MECCA."

The junior branch of the Citizens'
association at their regular bi-monthly
meeting today decided to compile
and publish a circular advertising
Dixon as a "Motor Mecca" and invit-
ing motorists from everywhere, as
well as all summer tourists, to visit
Dixon this summer.

A list of hotels, garages and a re-
view of the features Dixon has to of-
fer the summer tourist and vacation-
ist, will be contained in the pamph-
let. There will also be a map showing
Dixon as the center and the various
routes leading to this city from Chi-
cago, Iowa, Wisconsin and the south.

National Forest Fires Caused Loss of \$677,816 Last Year

Washington, Feb. 26.—Fire on the
national forests of the west in 1914
caused a loss to the government of
not quite 340,000,000 board feet of
merchantable timber, valued at \$307,
303, and of reproduction, or young
growth of trees, valued at \$192,408,
according to statistics just compiled
by the forest service. There were
6,605 fires, of which only 1,545 burned
over an area of ten acres or more.
About 77 per cent of all the fires did
damage of less than \$100 each. In ad-
dition to the losses suffered by the
government, timber on state and pri-
vate lands within the forests, totaling
228,008,000 board feet and valued at
\$175,302, was lost. The total area
burned over was 690,240 acres, of
which 310,583 acres were state and
private lands.

Notwithstanding that it was an ex-
ceptionally bad year for fires, on ac-
count of high temperatures, heavy known

Dixon Doctors And Druggists Under The Law

U.S. Revenue Dept. Will Super-
vise Selling of Drugs
Soon

Next Monday, March 1, the new
federal law, known as the Harrison
act, will go into effect and all local
dealers in drugs, physicians, dentists,
veterinarians, and hospitals which
have stocks on hand are posting them-
selves on the provisions of the act.
All those mentioned are required to
register under the terms of the law,
which is an act "relating to the pro-
duction, importation, sale, dispensa-
tion or giving away of opium or coca
leaves, their salts, derivations or prep-
arations."

Enforcement of the law is in the
control of the internal revenue bu-
reau of the treasury department. Reg-
istration must be made with the in-
ternal revenue collector for this dis-
trict. Deputy Collector Frank M. Ber-
trand of Rockford spent Wednesday
in this city at the postoffice assisting
the Dixon men who come under the
law in preparing their returns for reg-
istration. The aim of the act is to
gather information and provide ma-
chinery for the repression of the traf-
fic in opium and cocaine, insofar as
the traffic leads to drug addiction.

Records of all purchases and sales
of the drugs must be kept, but these
records are not open to the public and
may be examined only for the enforce-
ment of national, state and municipal
laws.

Physicians Must Register.

Physicians who handle their own
medicines are required to register
and to report sales. They are not re-
quired to report medicine dispensed,
but when they send opium or mor-
phine to persons they are not seeing
regularly they must keep written or-
ders just as other dealers do. If they
give hypodermic injections of mor-
phine or cocaine they need not keep
written orders if the injections are
given in good faith in the practice of
their profession. Prescriptions must
be signed with the full name and reg-
istration number and the date. Copies
of these prescriptions must be kept
for two years. Prescriptions contain-
ing morphine or cocaine can not be
refilled.

For dentists and veterinarians the
regulations are the same as for phy-
sicians. Hospitals and dispensaries are
classified as dealers and they must reg-
ister.

WILLIAM FELL DIED THIS MORN

Amboy, Ill., Feb. 26.—Special to
the Telegraph—William Fell, a resi-
dent of Inlet, east of this city, passed
away suddenly this morning at about
11:30 o'clock. Mr. Fell was well
known in Lee county, where he has
been a resident for many years. The
funeral arrangements had not been
announced today.

A complete obituary was not avail-
able today, but beside his wife, two
brothers, Alonzo of Ashton and An-
drew of Rochelle, survive him.

Map Showing Where Many Merchant Ships Have Been Sunk Around England and Near By.

About a score of merchant ships have been sunk or damaged by mines or submarines since the beginning of the war in the waters surrounding the British Isles or adjacent to the coasts of Holland, Germany and France. Some of these have been destroyed since the inauguration of the German war zone decree on Feb. 18. The war zone comprises the entire coasts of the British Isles, the English channel and the coast of northern France. In these waters the following ships have been sunk at places indicated on the map by letters: (A) Amiral Ganteaume, Oct. 26; (B) Malachine, Nov. 23; (C) Primo, Nov. 26; (D) Durward, Jan. 21; (E) Ikarya, Jan. 30; (F) Tokumaru, Jan. 31; (G) Linda Blanche, (H) Ben Cruachan, (I) Kilconn, all sunk on Jan. 30; (J) Ville de Lille, Feb. 16; (K) Dulwich, Jan. 17; (L) Citra, Oct. 20; and since Feb. 18 (M) Dinorah, Feb. 19; (N) Belridge, Feb. 19; (O) Cambank, Feb. 20; (P) Evelyn, Feb. 21; (Q) Downshire, Feb. 21; (R) unidentified ship reported sunk off Newport by Germans, Feb. 21. The stars on the map indicate the places where the two ships sunk on Feb. 21 were lost. Colchester, an English city reported to have been attacked by a German aeroplane, is also shown on the map, directly east of London, and is indicated by a cross. The area which is not shaded is that covered by the German blockade order.

CONVENTION ON JUDGESHIP IN ROCKFORD, APR. 26

REPUBLICAN CHAIRMEN DECIDE
ON MEANS OF CHOOSING
THE CANDIDATES.

FOR STATE SUPREME BENCH

One Delegate Allowed for Every Two
Hundred Votes Cast For
Russell in 1914.

(Special to Telegraph)

Rockford, Feb. 26.—At a meeting
of the Republican Judicial committee
of the Sixth Supreme Court district
here this afternoon it was determined
to nominate the candidate for the po-
sition on the supreme bench, which is
now occupied by Chief Justice Cart-
wright of Oregon, in this city on
April 26 at 1 o'clock in the after-
noon.

It was also decided that the basis
for representation in the convention
shall be one delegate for every 200
votes cast for Andrew Russell, repub-
lican candidate for state treasurer, in
1914; the manner of the selection of
these delegates being left to the coun-
ty central committees of the individ-
ual counties.

BECKER DENIED NEW TRIAL TODAY

New York, Feb. 26.—Herman

Public Invited To Teachers' Meet Here Tomorrow

Excellent Program Has Been
Prepared For The
Institute

An especially interesting program
has been arranged for the teachers
institute, to be held in this city to-
morrow at the south side high school
building, and a large attendance of
not only the teachers of Lee county
but likewise from adjacent counties is
looked for. A change has been made
in the original program mapped out
and the musical numbers will all be
held in the afternoon, giving an hour
concert. Mrs. Muriel Phelps has been
drilling the grades in group songs
and they have taken hold of the work
well. As many of the parents of the
children as possible should make it a
point to be present in the afternoon,
thus not only giving the children an
incentive in their work, but they will
hear a mighty valuable talk from N.
D. Gilbert of DeKalb, on the subject,
"Personality of the Teacher."

The complete program for the day
will be as follows:
9 a. m.—Proposed Educational Legis-
lation—R. C. Moore, Springfield,
Ill.
10:30 a. m.—The Inspirational Ele-
ment in Teaching—N. D. Gilbert.

union high school basketball team
won their first game in the North-
western Illinois high school basket-
ball tournament here this afternoon,
defeating the Geneva high school in
a fast game, finished with a score
32 to 23.

At the end of the first half Geneva
was in the lead 15 to 10; but the
Lee county boys staged a hot game
in the second, drove the Kane county
lads off their feet and pulled the
game out of the fire by their deter-
mined work. By so doing Dixon
gains the opportunity of meeting the
winner of the Batavia-Freeport
game.

Dixon Lawyers Honored; Chosen District Officers

Attorneys Edwards and Trussell
Elected at Federation
Meeting

Attorneys Harry Edwards and A.
K. Trussell were honored by the Fed-
eration of Local Bar Associations of
the Sixth Supreme district which met
at Rockford, for Mr. Edwards was
chosen vice president of the associa-
tion while Mr. Trussell was named as
the Lee county representative on the
executive committee; the officers and
directors of the Federation being as
follows:

President—R. K. Welsh, Rockford.
Vice President—Harry Edwards,
Dixon.

Secretary-treasurer—Robt. G. Ear-
ley, Geneva.

The executive committee is compos-
ed of one attorney from each of the
twelve counties in the district:

McHenry—Judge D. D. Smiley of
Woodstock.

Stephenson—Robert P. Eckert of
Freeport.

Boone—W. C. DeWolf, Belvidere.
Jo Daviess—Thomas J. Sheehan,
Galena.

Carroll—J. D. Turnbaugh, Mt. Car-
roll.

Ogle—F. J. Tilton, Rochelle.

Kendall—John Fitzgerald, York-
ville.

Whiteside—H. C. Ward, Sterling.

Lee—A. K. Trussell, Dixon.

DeKalb—John Faissler, Sycamore.

Kane—E. L. Lyman, Aurora.

Winnebago—A. D. Early, Rock-
ford.

Circuit Judge R. S. Farrand of this
city was one of the speakers at the
banquet tendered at the Nelson
House in the evening. He began his
short talk with the statement that he
would rather be nominated by a con-
vention of attorneys such as were
present than to have the certificate of
any primary election that could be
brought about. He joined Justice Car-
ter in praising the integrity and the
worth of Judge Cartwright and said
that there was no influence on earth
that could affect one of his decisions.

MAGICIAN WILL BE HERE MONDAY MAR. 8

V. M. C. A. ANNOUNCES CHANGE
IN DATE OF NEXT COURSE
NUMBER.

A change has been made in the
date of the next number in the V.
M. C. A. course of entertainments.
Wassman, the magician, was origi-
nally booked to give an evening's
entertainment on March 13, but the
date has now been changed to Mon-
day evening, March 8. He will ap-
pear at the Family theater and
comes highly praised at places where
he has appeared.

The next number will be furnished
by McCormick and Bronte on the
evening of March 22. This was to
have been the last number, but one
number in the course not being up to
the standard the Lyceum Bureau
have consented to add an extra num-
ber and this will be given sometime
during the fore part of April. The
entertainment committee have so far
not picked out what this number will
be.

Shanahan Cuts Off Pay Of Absentee Employees

of course, to the few house employes
Springfield, Ill., Feb. 25.—Speaker
Shanahan saddened the hearts of pa-
trons and prospective mem-
bers of the "third house" today by
the announcement that all house pay-
rolls will date from the time the pay-
roller begins work instead of from
the opening of the session. The de-
claration was a jolt to many of the old
timers who have made a practice of
coming to Springfield after the ses-
sion was well under way and re-
ceiving pay from the start.

Another ultimatum issued by the
speaker this morning was that all em-
ployes must be on the job every day
the house is in session. Delinquency
will mean immediate discharge.

in the Straits and mine sweep-
ing has been started.

TURKS SAY THREE SHIPS WERE DAMAGED.

The war ships of the Anglo-French
fleet which bombarded the Dardan-
elles are said by the Turkish official-
s to have been damaged. The
Turkish statement does not refute
specifically the British claim that all
of the outer forts of the Dardanelles
have been reduced but conveys a
contrary idea asserting that the fleet
withdrew after bombarding the forts
for seven and one-half hours.

RAISE PRICE OF POTATOES TO SAVE THEM.

The German-Bundesrat today raised the price of potatoes to prevent their consumption by cattle.

Washington, D. C., Feb. 25.—It was learned authoritatively tonight that identical notes were sent by the United States to Great Britain and Germany after the cabinet meeting last Friday and that they contained the following proposals:

"Great Britain and Germany" are asked in the interests of humanity and the safeguarding of legitimate commerce to remove all mines from the high seas except those directly necessary for the protection of coast defense and harbors.

"Great Britain is asked to acquiesce in a plan to permit the distribution of foodstuffs to the civilian population of German."

"Germany is asked to abandon its submarine warfare on merchant ships if the proposed food arrangement is made with Great Britain."

Reply to Be Delayed.

Intimations have come to the Washington government that until the British cabinet acts and the attitude of France and Russia is learned no reply can be given to the American proposals. This may require several days.

In the meantime, Germany has already manifested a willingness to make concessions, which gives officials here ground for hope that a conciliatory spirit will be adopted by Great Britain.

It can be stated authoritatively that in the American communication made identically to Germany and Great Britain, no mention was made by the United States of what course it would pursue in the event of rejection of its proposals.

The United States assumes rather the role of mediators, in an effort to reach an agreement without the embarrassments of public discussion in the belligerent countries where passions were thought likely to stimulate influences that would defeat impartial consideration of questions involved.

Starve Order Boomerang? High officials of the Washington government have shown much solicitude over what might be the extent of retaliatory measures adopted by the belligerents if they continue to disregard previously accepted principles of international law.

It is understood that one of the arguments used is that if the policy of starvation is put into effect by Great Britain, the first to feel the pinch of hunger might be the British, French and Russian prisoners.

Another suggestion said to have been conveyed is that suffering forced upon the civilian population of Germany might produce an unwholesome effect on the attitude of the American people toward Great Britain and her allies.

Neutral Nations With U. S. There is every evidence that neutral governments are working in close harmony with the Washington government, and have manifested more than a willingness to cooperate in efforts made here to assist in a settlement of the vexatious questions arising out of the submarine and mine warfare. Secretary Bryan denied today that an

embargo by the United States on exports of foodstuffs was being contemplated.

Following a talk with President Wilson, Representative Porter of Pennsylvania, republican, introduced a bill to authorize the president to lay, regulate and revoke embargoes on all ships and vessels in the United States ports, or United States or foreign vessels, whichever in his opinion it is necessary, until fifteen days after the commencement of the new session of congress.

DIXON WON FIRST GAM IN TOURNEY

(Continued from page 1.)

The sensation of the day for they forced the West Aurora team to the wall, making it necessary for Aurora to play extra time. Aurora won by a lucky basket in the extra time.

First Game Played.

DeKalb and Crystal Lake dropped out of the Northwestern Illinois basketball tournament here last evening when they lost their games to Elgin and Belvidere. DeKalb gave Elgin a close game, but Crystal Lake offered feeble resistance to Belvidere. The Elgin-DeKalb game ended 22 to 17 and the Belvidere-Crystal Lake contest 43 to 13.

If DeKalb had shown more spirit in the first half it probably would have defeated the Maroon and Cream, but it permitted Elgin to do just about what it pleased and the score at the end of the first half stood 16 to 5. DeKalb must have received a generous dose from its coach between halves, because they came back and played Elgin off its feet. Wild passing, however, robbed them of a chance for victory. For the benefit of the Maroon and Cream, however, it must be admitted that they had hard luck with the baskets.

Belvidere started the Crystal Lake game with one regular and wound up with nearly the entire first team on the floor. Crystal Lake offered some resistance the first few minutes but after that they wilted and never had a chance. The old-time Belvidere combination in the last part of the second half simply toyed with its opponents.

The crowd was a small one. DeKalb and Belvidere had a few rooters present but the other five had no supporters. The crowd was practically a Rockford one. Naturally, the local rooters pulled for DeKalb against Elgin and they were considerably disgusted with the nonchalance shown in the first half. Crystal Lake was so distinctly out-classed that there was no opportunity to root for its five.

Deane Takes It Easy.

The work of the officials was good, but Deane would do better if he moved around a little more, especially on out-of-bounds. He called them in the Belvidere-Crystal Lake game when they were not and often missed them when they were. Immenhausen, on the contrary, showed plenty of activity in the first game and usually saw everything that was going on. Otherwise there was but little fault to be found.

Rockford Crippled.

Rockford's basketball hopes for the tournament dwindled considerably yesterday when the announcement that John Daley, captain and center, had a severe cold that kept him home, and that Wilcox's injury was healing very slowly. It is feared neither the tall centered nor the star forward will be able to play against Mt. Carroll this afternoon but hope is entertained that both may be in the fray Saturday. Should both of them be out of it Rockford could hardly hope to reach the semifinals.

NELSON ESCAPES FROM SCHOOL

William Nelson of this city who was sent to the Industrial School of Glenwood some three weeks ago has made his escape from the institution according to a letter received this morning from the boy's brother, Clarence, by his mother in this city. The boy is aged 14 years but so far he has not put in an appearance in Dixon.

Harry Byers of South Dixon township today purchased an Oldsmobile touring car. The roads are now getting pretty good for driving and the auto fever is growing. The various dealers are now keeping in touch with prospective buyers.

ALL FORTS FALL ON DARDANELLES

British Foreign Office Tells of Allied Fleets' Triumph.

CZAR TO GET CONSTANTINOPLE

England Changes Her 100 Year Policy Regarding Muscovite Possession of Warm Sea—Turk Capital in Panic—Government and Crown Jewels Are Removed.

All the fortifications at the entrance of the Dardanelles have been reduced by the allied fleet. This announcement is made officially at London.

London, Feb. 26.—Naval experts, point out that the reduction of the forts at the entrance of the Dardanelles is merely the first step in a stupendous task and that enormous efforts will be required to force a passage of the rest of the straits which are lined with strong forts and modern defensive works, for a distance of forty miles on both sides. Furthermore, the Turkish fleet which under such conditions is not to be despised is supposed to be stationed in Nagara roads, at the narrowest part of the waterway and extensive mine fields have been planted at strategic points. The forts reduced are three in number and have been regarded as the strongest in the world.

The allied fleet is the strongest aggregation of warships on the allied side with the exception of the British home fleet.

London, Feb. 26.—One of the most important changes in British foreign policy in the past 100 years was announced in the house of commons by Sir Edward Grey, the minister of foreign affairs, when he stated, in reply to a question from the floor, that England is willing to abandon her traditional opposition towards Russian acquisition of a "warm water" port and will support the intentions recently expressed by M. Sazonoff, the Russian foreign secretary, in the words that "Russia intends permanently to occupy Constantinople."

Close upon this momentous declaration came a dispatch from Salonika with the news that the Anglo-French fleet, the medium through which Russia may eventually accomplish the extension of her sphere of influence, had begun again the bombardment of the Turkish forts on the Dardanelles and another dispatch saying that the Ottoman government was so much alarmed at the progress of the attack that the crown jewels and the government records had been removed to the interior. Previous advice have stated that the Ottoman archives had been taken to Adrianople.

Still a third dispatch tending to show the success of the movement against the Turkish capital came from Copenhagen where messages had been received from Petrograd announcing that Russian merchants had concentrated vast quantities of wheat and rye in harbors along the Black sea waiting for the moment when the allied warships open up the straits. The proposed loan of \$50,000,000 by Great Britain to Russia depends in a measure upon the marketing of the crop of cereals in the southern Russian provinces.

Russ Embarking Army. Athens informs London that Constantinople is threatened not only from the sea but likewise by land and that Russian transports on the Black sea are about to embark an army for an invasion of Turkey and the reduction of the capital. Turkish submarines in the Bosphorus are said to be showing the greatest activity in preparing to meet this latest danger.

Grey Confirms Statement.

Sir Edward Grey's statement in commons was called forth by a question from Frederick W. Jowett, who wanted to be informed if Great Britain knew of and approved the declaration made by M. Sazonoff. The foreign minister replied that he was not aware that M. Sazonoff had made precisely that statement, but he added, "The statement I have seen was that M. Sazonoff had said that the events on the Russo-Turkish frontier would bring Russia near a realization of the politico-economic problem bound up with Russia's access to the sea."

"With these aspirations England is in sympathy. What form their realization will take will, no doubt, be settled in the terms of peace."

One unquestionable result of Great Britain's new stand will be the utter rout of the anti-war party in Russia which has been working for the arrangement of a separate peace. Russia cannot question the fact that she cannot win her way to the Mediterranean without the aid and consent of England and France and no faction that opposed bringing about such a situation could continue to exist.

Women Lose in Vermont. Montpelier, Vt., Feb. 26.—The state senate killed the woman suffrage bill which was passed by the house.

Physical Director Harry Major of the Y. M. C. A. went to Rockford this afternoon to attend the basketball games there tonight and tomorrow morning.

MAGISTRATE KENT ADMITTED TO BAR

PASSED LEGAL EXAMINATION AT OTTAWA—OTHERS PASS ALSO.

At the state bar examination held on Tuesday and Wednesday of this week in the Appellate court building at Ottawa 162 took the two days' examination. Of this number two were from Dixon: William G. Kent, and Isadore Yacktis, while Edward F. Mee of Sterling, who has been reading law in the offices of Dixon & Dixon, also took the examination. Word was received this morning that all had made the required grades, and that Mr. Kent secured highest grade in the class.

Mr. Kent attended the law department at the Dixon college and in 1905 went to Oklahoma and took the bar examination there and was admitted to the bar. His work as police magistrate has given him a good opportunity to review his law books and become familiar with technical law points. His many friends extend congratulations.

THOMPSON GAINS 500 VOTES

Indications Are He Will Be Republican Mayoralty Nominee by 5,000.

Chicago, Feb. 26.—Samuel Ettelson, who is watching the official count of the votes cast at the Tuesday primary, states that out of the 325 precincts counted and totaled the aggregate gain in the Thompson vote over the police returns was 500.

Judging from this, he said the total gain for Thompson would be about 2,000, which would make his plurality over Olson from 4,000 to 5,000 votes.

BARBED WIRE.

Barbed wire was invented in Illinois many years ago, by a man whose descendants now belong to the first families and can buy new automobiles whenever they feel like it.

It takes a humble little thing to alter geography and society, and turn governments over and over. Mosquito netting dug the Panama Canal; the cotton gin made clothing cheap and plentiful for the whole world, and the barbed wire fence turned the embarrassingly great west into a feed lot for the cattle of America.

When the white man had cleared the Indians and buffaloes off the prairies and had run a railroad across them, he wanted his head in use. They were too big to be useful. It would have taken all the carpenters in America to fence them in. For many years cattle men operated ranches as large as Belgium or thereabouts, with shotguns for boundaries, but the method was wasteful. It reduced the already scanty population, and it didn't keep the cattle from straying into other ranches and producing complications which were usually settled by the coroner. Then kind-faced muley cow, behind a wov-

Colonel Elwood came forward with his barbed wire fence, a neat and unostentatious contrivance which, when rubbed against by a restless steer, ran a wire spine into his hide, and caused him to back off in great agitation.

After the barbed wire fence came, the rest was easy. Several million miles of fence went up over the prairies, and the corn raiser began to go west, where he could raise four times as much corn per drop of perspiration and at the same time could keep it out of his neighbor's cattle. Nebraska and Kansas became corn and wheat fields, and the United States grew greater with much enthusiasm.

Barbed wire is now passing gradually out of use on the farm, because it is regarded as too cruel. Nothing disarranges a fine milk cow so distressingly as a reckless little scrap with a barbed wire fence. However, this does not in the least disqualify it for military purposes, and shipments of barbed wire are going to Europe every week, to be used in making the lot of the common soldier more undesirable. After a fair-haired, pink-cheeked boy has fought and crawled through half a mile of barbed wire entanglements with machine guns in front of him, disgrace in the rear, and it didn't keep the cattle from straying into other ranches and producing complications which were usually settled by the coroner. Then kind-faced muley cow, behind a wov-

Colonel Elwood came forward with his barbed wire fence, a neat and unostentatious contrivance which, when rubbed against by a restless steer, ran a wire spine into his hide, and caused him to back off in great agitation.

PRESIDENT TAFT'S AID IN MYSTERY SUICIDE

Captain A. E. Harding, Former Illinoisan, Takes Life.

Philadelphia, Pa., Feb. 26.—Capt. A. E. Harding of the United States Marine corps shot and killed himself at the Racquet club, of which he was a non-resident member. The police have thus far been unable to assign a cause for the suicide.

Captain Harding was an aid to President Taft. He was appointed to the marine corps from Illinois in 1899. He was married a few months ago, and his wife was expected to arrive here the day of the tragedy.

Quincy, Ill., Feb. 26.—Captain Arthur Eugene Harding, who committed suicide in Philadelphia, was born in Quincy, and was a member of one of the best known families. He was a son of Mrs. Thomas Harding. One of his sisters is the wife of C. T. Daxey, the playwright of New York city. Another sister, Mrs. Steele, lives in Tulsa, Okla., and the sister at home, Miss Made Harding, is supervisor of music for the public schools of Quincy.

Captain Harding, who was forty-two years of age, commenced his military career in this city, becoming a member of Company D, Fifth Regiment of Infantry, rising from private to captain of the company. Later he joined the regular army and won distinction in the Boxer uprising and was the first United States soldier to go over the Chinese wall at Peking, in an effort to restore peace.

WHEN THE CITY SLEEPS

As the great city sleeps, its pulse is scarcely disturbed by the feverish activity of the hosts of darkness. Or if the city catches a rumble of their movements and stirs in its slumber, it is only to turn over and go to sleep again. No hypnotic spell will account for this indifference of a city of five millions to the presence of an army in its gaslit streets. It is merely habit. If here and there in the cubical hives where New York takes its rest an unquiet sleeper tosses in his bed and resents the disturbance, it is not to wish that these prowlers of the night were caught and sent to jail, but only to wish that they went about their business more discreetly—this great host of market-men, grocers, butchers, milkmen, push-cart engineers and news-vendors who have been engaged since soon after midnight on the enormous task of preparing the city's breakfast.

For this, of course, is the real night life of New York—the life that beats at rapid pace in the great water-front markets, in the newspaper press-rooms around Brooklyn Bridge, under the acetylene glare over excavations for the new subways, and in the thousands of bakeries that line the avenues and streets.

This is the underworld of which we speak so little because it is a real underworld. It is not made up of subterranean galleries and shafts inhabited by a race engaged in sapping the upper world. It is a true underworld, on which the upper world of the daylight hours is grounded. The foundations of society run down into the night where the city's food, the city's way of communication, and the city's news are being made ready and garnished for the full roar of the day's life.

Compared with these workers of the dark the operations of the housebreaker and his sister of the shadowy side-walks sink into insignificance. It is but a turn of the hand for the army of the laborious underworld to undo the mischief which the outlaws of the night have performed. Between one and five in the morning they create ten thousand times the wealth which it is in the power of the jailbird to destroy.

When it has lost self-respect. When the old have not won the respect, the confidence and the admiration of relatives and those nearest to them.

When they do not stand for anything in their community. When their neighbors would not consider their departure any loss. When their imagination is foul and the thought impure. When all the youthful fires have gone out and only embers remain. When the individuality has been burned out by the fires of dissipation. When all the reserves of energy and force have been prematurely exhausted by a vicious life. When the individual has not learned the art of self-control and patience. When young people can not live with it with any comfort. When it has developed only vulgarity, coarseness and animality. When it has left the individual ugly, disagreeable, touchy, cynical, critical, uncharitable, unkind. When hope and cheer have fled. When ambition and aspiration are dead. When they have lost the zest for life, the desire for usefulness. When they have no aim in life. When the sap of life has gone and the individual is like a juiceless orange. When all that is good, sweet and noble has evaporated and life is empty.

He Asked Too Much

"I have a stenographer now," proclaimed a prominent business man, "who comes pretty close to being a prize. She is always punctual, always neat and her manners are perfect. She has a pleasant voice; she is nice to look at, and she doesn't chew gum. She never flirts with the young men in the office, and she is never impertinent." "Almost a prize?" repeated one who was listening. "Why she's almost to good to be true. What's the matter with her?" "She can't take dictation and she doesn't know how to use a typewriter." "Well, a fellow can't have everything perfect."

You Never Can Tell

"When you poke a toad," said old Farmer Hornbeck, philosophically, "you can't tell which way he will jump, nor how far; an' it is jest about the same way with a jury." "That so?" returned young Jay Green, in a noncommittal way. "Yep. For instance, in the case of Plunk Jarvis, who has just been tried over at Kieckhasset courthouse for pullin' out his brother-in-law's whiskers for the roots, in a fight, the jury discharged Plunk an' fined his brother-in-law ten cents, the regular price of a shave."—Puck.

No Job for Him

The spring had brought out the usual crop of listless wanderers. "Want help, do you?" said the prosperous-looking party who had been applied to for assistance by one of these. "You're a husky-looking beggar, I must say! Why don't you work?" "My business isn't good at dis season," said Dusty. "What is your business?" said the prosperous-looking party. "I'm a professional tobogganist," said Dusty.

EXTRA SESSION SENATE LIKELY

Matter Will Be Decided at Cabinet Meeting To-day.

BRYAN TREATIES ARE ON TAPIS

Secretary of State Wants Nicaraguan and Colombian Pacts Ratified—Trade Commission Appointees to Be Acted on—Question of Closure Is to Come Up.

Washington, Feb. 26.—There is probability now that the senate will be called in extra session immediately after March 4. The matter will be decided at the cabinet meeting to-day.

Hoping he will be able to force the ratification of the treaties with Colombia and Nicaragua, Secretary of State Bryan has been bringing pressure to bear in this direction. Another purpose of the special session of the senate will be to act on the trade commission nominations should these remain unconfirmed as is likely on March 4. Also the incoming senators, those elected last November, will be sworn in and this will give them the opportunity to fill the patronage places now filled by appointees of the retiring senators.

Seeking Closure Rule.

Another proposal for the special session of the senate made itself known through a petition being circulated by senators favoring some closure rule. The senate, they contended, could meet in special session without necessitating a meeting of the house of representatives also and amend its rules, so that filibusters against bills could be prevented. This petition could not be called a success according to the latest report, and it is regarded as certain that a majority cannot be obtained for any form of closure, too many Democrats as well as Republicans being opposed to it, especially such senators as Overman, chairman of the rules committee, and Hoke Smith, also of that committee. Among the senators most determinedly opposed to the two treaties are Smith of Michigan, Borah of Idaho and Poindexter of Washington.

"ADONIS" TERRY SUCCUMBS

Pitcher Off Whom Ed Deleahanty Made Big League Record Dies.

Chicago, Feb. 26.—William H. Terry, formerly one of the star pitchers for the Brooklyn and Chicago National league teams, died of pneumonia in Milwaukee, which has been his home for years. He retired to go umpiring in 1900 in the American league. He officiated only one season and then went to Milwaukee, where he entered the bowling game, starting the first regulation alleys there. His nickname was "Adonis."

Terry's death recalls one of the greatest feats in base ball. It was against his pitching that Ed Deleahanty, the star of all hitters in those days, made four home runs and a single in as many times to the plate. This happened on July 12, 1896, and was in the declining days of Terry's career. Deleahanty was about the only player in his club who hit the ball at all, and his homers were all the runs they got.

London, Feb. 26.—Premier Asquith took occasion in the house of commons, replying to a question, to indorse the opinion expressed recently by Winston Churchill, first lord of the admiralty, in a newspaper interview to the effect that Great Britain would continue to fight to the end, even should France and Russia withdraw from the war.

THE EASIEST WAY TO END DANDRUFF

Stop Falling Hair and Itching Scalp.

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy, every single sign and trace of it, no matter how much dandruff you may have. You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. If you want to keep your hair looking rich, do by all means get rid of dandruff, for nothing destroys the hair so quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and lifeless, and everybody notices it. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

A "SOIL DOCTOR" IS A GOOD INVESTMENT.

The movement to procure a paid Farm Adviser for Lee county is again under way and the farmers and business men of this county who are looking for better things and who have a desire to progress, are pleased.

The committee which has been appointed to work out preliminary plans for the campaign has found that there is a federal fund which provides for financial aid to counties that desire to employ a soil expert and the committee announces that the federal government will donate from \$1200 to \$1500 annually toward the support of this institution in counties where one is installed. The investigators find that about \$4,000 yearly will be required to employ the sort of an expert farm adviser we should have and pay the necessary expenses of his office. The balance required to maintain the office over the amount donated by the government may be raised by public subscription or appropriated by the board of supervisors.

It seems to the Telegraph that the fairest way to handle the proposition would be to have the money taken out of the general tax fund by the appropriation of the county board, for the good that will result will be felt by the entire community. Residents of cities, towns and villages will be benefited as well as owners and tenants of the farm lands of the county, for greater efficiency in farming spells advantage to all alike.

Probably a few do not favor the employing of a farm adviser, but we believe their objection results from a lack of knowledge of the value of such a man, rather than any real, valid objection to such an institution, and a campaign of education along this line would sweep away all opposition. Those who know the benefits that have accrued to counties that have a "farm doctor" cannot believe otherwise.

The committee in charge of the work is composed of: George Carpenter, Amboy; A. S. Wells, Pawpaw, and Abram Ackert, Dixon. Any citizen in the county who is interested in the movement should take it upon himself to write a member of this committee, expressing his views.

A "soil doctor" would do a vast amount of good in Lee county. He would show us how to get a greater dividend from the money invested in our high-priced land—and when we consider the prices that are being paid for farm land in this part of the state we will realize that it is highly necessary that someone show us how to make the land earn more money. If we do not, prices are going to drop some day, or at the best they will stop advancing, for when land reaches a point where it will not pay more than a certain per cent on the investment, something must happen to the price. Men will invest their money in something that pays them a good per cent. On the other hand, scientific methods of farming will make Lee county farms earn more money and will advance the value of these farms. That much is certain.

Wake up to the facts of things, citizens of this community. Study up on the matter if you are in the dark. Write to someone in DeKalb county and ask them what DeKalb thinks of Mr. Eckhardt, DeKalb's soil expert, and they will write back and tell you that DeKalb will never again be without a good soil expert. They can see what has been done over there and their only regret is that they did not get their soil expert sooner.

A farm expert would be the most inexpensive and the best paying investment Lee county ever made considering the good results that would follow.

THE WAY TO HANDLE CATTLE DISEASE.

On Tuesday last when the foot and mouth disease was discovered on a farm in Prairieville, the official inspectors got a move on them and had the infected stock buried under ground within about twenty-four hours. That looks like business. If every case could have been handled in that efficient manner from the start, we would never have had as many in this vicinity. The inspectors will tell you themselves that if the first infected herds could have been destroyed at once the disease could not have spread as it has and it is also claimed by those who are in a position to know, that if the counties in which the disease first appeared had been promptly quarantined, Lee and other counties would probably have escaped entirely.

The frost being out of the ground is a great aid to the men disposing of the cattle and we believe that the end of the epidemic is in sight.

RESPECT THE QUIET ZONE.

Certain automobile drivers seem to think the "Quiet Zone" is a race course and that passing a "Quiet Zone" sign is a signal to open the cut out and cut the old wagon loose. An automobile driver whose bump of selfishness looks like a baseball and whose bump of manners is probably a dimple, has been noticed lately racing his car up the hill to the hospital on East First street. If he knew the scorn that his actions provoke for him in the minds of those who see him, he would hardly have the nerve to keep it up. There are several auto drivers who are paying no attention to the signs requesting silence. The best we can say for them is that they are showing mighty poor taste.

The trouble with the war is that it spoils readers of the newspapers. A story of the slaughter of a regiment or two is nothing. Oh, my, no! The Italian earthquake was simply an incident. The number of killed has to be in five or six figures to cause more than a ripple of excitement nowadays.

The federal law prohibiting duck shooting in the spring is not the only thing bothering local hunters. The quarantine put on this and many nearby counties by Governor Dunne because of the foot and mouth epidemic prohibits all hunting within the confines of the quarantined county.

A few months ago, before last November, the democrats and the assistant democrats talked sarcastically about the G. P. O. elephant, declaring he was merely a ghost. Now the old boy appears in their dreams in the form of a Hobgoblin.

The latest one from London—though we can't see how they have much time to think of jokes in London—is: Why is a pig's tail like breakfast at 5 o'clock in the morning? The answer is, "twirly."

THEY MUST VOTE STRAIGHT

Only "Yellow Dog" Men Eligible for Election Commissioner.

Belleville, Ill., Feb. 26.—Judge Joseph B. Messick of the county court at Belleville yesterday removed C. R. Hissrich of East St. Louis as a member of the board of election commissioners of that city. It was held that Hissrich, "is not a man of well known political connections." The removal followed the filing of a petition, signed by twenty-five Republican voters in East St. Louis.

Under the Illinois statute it is provided that members of the board of election commissioners shall be members of the dominant political parties and of well known political connection and approved capacity. Hissrich testified he had been a Republican for forty-five years, but admitted that he sometimes scratched a ticket. The decision indicates that only the "yellow dog" type of politician is eligible for election commission in Illinois.

INSURANCE MAN TO SPEAK HERE SOON

FRANK H. ANDERSON WILL BE SPEAKER AT THE MEN'S CLUB MEET.

While in Chicago on Wednesday Secretary E. T. Bailey of the Y. M. C. A. secured a speaker for the Men's club for the March meeting in the person of Frank H. Anderson, secretary of the Illinois Insurance Federation, who will speak on "Ownership Insurance Companies." Mr. Anderson was in Dixon a few weeks ago and addressed the insurance men of the county in a meeting held at the city hall. He is a fluent talker and is thoroughly posted on the insurance business. The exact date Mr. Anderson can come is not known, as he has other business engagements. It is the hope to have Cornelius Doyle, ex-secretary of state, to address the club early in April, although nothing is definitely known as to the date.

C. D. Dillon returned today from a short visit in Chicago.

TWO VIEWS.

It rained all day, and Sarah Jane surveyed the dismal scene; her face against the window pane, she gazed, and cried, "How mean! Here I am condemned to stay inside, and mope and break my heart, when I would rather take a ride in Willie's chug-chug cart! Oh, rain, you spoil this life of mine, you make me wail and sob! The sun should have to pay a fine for loafing on its job!" Said Gladys Mae Rebecca, "Hoots! This weather can't be beat! It's just the stuff for men and bruts, and also for the wheat. What more could any one desire than such a day as this, when one can sit before the fire, and read, in perfect bliss? The music of the blessed rain, as on the roof it falls, should soothe away our every pain, and heal our harness galls. I like the sunshine when it gleams on hill and bosky dell, but when the rain gets wet and streams, I like that just as well." Then Gladys Mae Rebecca took the Uplift Magazoon, and in the cozy inglenook enjoyed the afternoon; while Sarah Jane, with gloomy mind, looked forth at gusty showers, and, in a manner most refined, she cursed the dragging hours.

U. S. ASKS SEA FREE OF MINES

Protests to Germany and En-
gland Seek Compromise.

SHIP SINKING IS INDEFENSIBLE

Washington Asks Germany to Cease
Submarine Attacks on Merchant
Vessels—England Requested to Per-
mit Food to Teutons—Acts Violate
Rights of Neutrals.

Washington, Feb. 26.—From an au-
thoritative source is learned all the
proposals which the United States
made to Great Britain and Germany
in the notes which were prepared
after the meeting of the cabinet last
Friday and immediately dispatched
to Ambassador Page at London and
Ambassador Gerard at Berlin.

Both Great Britain and Germany
are asked definitely to withdraw their
mines from the open seas.
Great Britain has been asked to
permit the importation of foodstuffs
into Germany for noncombatants, un-
der the supervision of agents of the
United States.

Germany has been asked to cease
attacks on merchant vessels by sub-
marines.

These two notes are said not to
exceed 500 words each in length.
In asking the two belligerent na-
tions to stop the practice of sowing
mines in the open seas along the
lines of established trade routes, the
United States declares such conduct
is a flagrant violation of international
law and indefensible under the usage
of civilized nations. It is declared
to be grossly violative of the inherent
and sacred rights of neutrals.

Each Concession Equally Important.
The request that submarines shall
cease their attacks on merchant ves-
sels goes to the root of the question
affecting the commerce of the United
States passing through the English
channel for English, German, Dutch
and Scandinavian ports.

The United States has nicely bal-
anced its propositions to the two
countries. Each is asked to make a
concession which the United States
regards as equal in importance.

It is unqualifiedly asserted by state
department officials that the United
States had not indicated to Great Brit-
ain or to Germany what this country
would do if either or both of the
belligerents shall reject the proposi-
tions of the American notes.

The reports that the propositions
might be rejected by England led to
a general discussion as to the 'rejection'
creating a new crisis. It was said
that Counselor Lansing spoke
advisedly in New York when he re-
ferred to the existing conditions as
critical.

13th and 14th Ships Lost.
London, Feb. 26.—The seventh day
of the German "blockade" of the Brit-
ish Isles brought news of the destruc-
tion of two more mercantile vessels,
making a total of fourteen ships of
British and neutral nationality sunk
or damaged by mines or torpedoes in
the first week of the submarine war-
fare which began on Feb. 18.

The latest victims are the steamer
Depford and the Western Coast, both
British craft. The Depford was sunk
off Scarborough in the North sea and
the Western Coast went down in the
dangerous zone off Beachey
Head in the English channel. In
neither case has the agency of the
destruction been established, although
the indications are that submarines
were responsible. Both were small
boats. Their crews were saved.

FAMILY THEATRE

A three act bill will play the Family
for the balance of this week, and
those who witnessed the opening last
evening are generous in praise. The
bill consists of Cross & Mooney in a
refined comedy act replete with good
singing and dancing; Pope & Uno in
a wonderful dog act, in which the dog
appears in various costumes and as-
sists his master in playing on bells
and doing other stunts. Last but not
least is Wright & Clayton, billed as
Whirlwind Dancers. They do a num-
ber of the late fancy dances and all
the oriental dances in a manner that
places them as the peer of all dancers
seen at this theatre. If you want
to see a highly artistic act you should
not miss this opportunity.

Pictures tonight are: Walter E.
Perkins as Topsy in Who Goes There?
a two act drama, and Everything
Against Tim, a comedy.

OPERA HOUSE.

"The Awaited Hour," a two reel
Imp drama, depicts the vengeance of
a bank employee. Convict slowly stran-
gles wife's betrayer. In the filming of
The Awaited Hour, with Violet Mes-
ereau and Wm. Welsh in the leading
roles, views of a real state prison are
shown. Actor convicts roam among
the prison factories and the great
quadrangle. In the distance armed
guards pace the parapets making the
rounds. Through loopholes in the
little boxes on the wall top the other
guards level their guns on the pris-
oners below, waiting for the always
expected moment when a convict tries
to make a dash for liberty. Beside
the prison wall runs a river, the dis-
tance to which from the top of the
wall is 77 feet; this is where William
Shay makes his sensational jump, at-
tracting much attention from the New
York press at the time it was
made. Other very interesting scenes
are shown inside the prison and the
story is intensely interesting. The
one reel drama is "How Mary Fixed
It," with charming Mary Pickford in
the leading role. The comedy is "All
Over the Biscuits," a very clever Nes-
tor production.

PRINCESS THEATRE.

Tonight "The Bride of Guadeloupe"
in two reels together with two single
reels will be shown at the Princess.
This feature is produced by the Dom-
ino Co. with Howard Hickman and
Elizabeth Burbridge in the leading
roles, a romantic tale of the old Cali-
fornia mission days brilliantly pre-
sented with splendid Spanish atmos-
phere. The other reels are "Nell's
Strategy," a Princess drama with
Boyd Marshall and Rene Farrington
in the leading roles, a love story in
which a poor young man wins out
against a millionaire, and a comedy,
"Bill Turns Valet," the sixteenth
chapter of the famous Bill series by
Paul West.

Why Trade In Dixon?

Another of the Essays Submitted By Telegraph
Readers In Recent Essay Contest.

(By R. C. Caughey.)

Dixon is a community of interests
and all the people within a fixed ra-
dius of the city of Dixon are directly
or indirectly benefitted by having
a town such as Dixon is within reach
by phone of conveyance.

The merchants of Dixon are all
men and women who have studied
the needs of the people in this com-
munity carefully, and everything
needed for the home and farm can
be bought here.

Now since the business people of
Dixon have faith enough to stock
their stores with goods it goes with-
out saying that they are ready to
meet fair competition from outside,
and all they ask of you is to give
them an opportunity to show you.

It is a well known fact in every
line of merchandise from hardware
and groceries to furniture and pian-
oes, that there are low grades
and high grades. So when the mail
order house sends out their cata-
logue with pictures and alluring
prices, do not jump to the conclu-
sion you home merchant can't dupli-
cate the bargain, for I believe he
can if you are willing to send him
the cash when ordering.

Every dollar you spend in your
home town is that much invested in
making a prosperous community, as
it is only by home trading that we
can afford the up-to-date places of
business we have. If it was not for
home trading we could not have the
daily paper and the telephone.

I must say it is not fair to your
home merchant for you to send to
Chicago for the bulk of goods you
use, and cash with order a week or
more before you receive them, and
then when you need a friend real
quick, go to your home merchant,
and buy something you will not pay
for a long time.

The final reason you should do
your shopping in Dixon is the mer-
chants' all desire to have satisfied
customers, and therefore, study to
please you, by supplying what you
wish, and if for any reason the ar-
ticle is not satisfactory, you can have
the matter adjusted without a lot of
red tape.

So lets all boost for Dixon and
there is no better way to do it than
to shop at home.

(By Louise Gerdes.)

"Why you should shop in Dixon"
is really an easy question if we stop
and take time to consider it. We
all want our home town to be as at-
tractive as possible and in order to
make it thus we need money, and in
order to get money we must do our
trading and shopping in Dixon so as
to help and encourage the mer-
chants, for they are in reality the
ones that build up and improve the
town. Everyone should have a
pride in their town and help boost it
all they can.

Dixon is located in a beautiful
spot, mid the rolling plains of Illi-
nois, and the rolling hills of Iowa. The
way has come through we want to

build new buildings, fix up the roads
and make other numerous little im-
provements that will bring out the
beauty of the location. Many tour-
ists have remarked what a pretty
town it is, and the merchants are the
ones to whom this praise should go.
So when they have "bargain days"
lets go and buy and make them see
that we really want to boost Di-
xon. Let's spend our money where
we earn it, and not carry it to other
places.

So come on and shop in Dixon and
induce your friends to do so and
shout "Hurrah for Dixon" this will
give the merchants energy and cour-
age. There are two railroads that run
through Dixon and one street
car line, so stir up your ambition and
don't only talk but act, and do your
shopping in Dixon.

Sick Women Attention

Is it possible there is a woman in this country who continues to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, which proves beyond contradiction that this grand old medicine has relieved more suffering among women than any other one medicine in the world?

We have published in the newspapers of the United States more genuine testimonial letters than have ever been published in the interest of any other medicine for women—and every year we publish many new testimonials, all genuine and true. Here are three never before published:

From Mrs. S. T. Richmond, Providence, R. I.

PROVIDENCE, R. I.—“For the benefit of women who suffer as I have done I wish to state what Lydia E. Pinkham's Vegetable Compound has done for me. I did some heavy lifting and the doctor said it caused a displacement. I have always been weak and overworked after my baby was born and inflammation set in, then nervous prostration, from which I did not recover until I had taken Lydia E. Pinkham's Vegetable Compound. The Compound is my best friend and when I hear of a woman with troubles like mine I try to induce her to take your medicine.”—Mrs. S. T. Richmond, 84 Progress Avenue, Providence, R. I.

From Mrs. Maria Irwin, Peru, N. Y.

PERU, N. Y.—“Before I took Lydia E. Pinkham's Vegetable Compound I was very irregular and had much pain. I had lost three children, and felt worn out all the time. This splendid medicine helped me as nothing else had done, and I am thankful every day that I took it.”—Mrs. MARIA IRWIN, R.F.D. 1, Peru, N. Y.

From Mrs. Jane D. Duncan, W. Quincy, Mass.

SOUTH QUINCY, MASS.—“The doctor said that I had organic trouble and he doctored me for a long time and I did not get any relief. I saw Lydia E. Pinkham's Vegetable Compound advertised and I tried it and found relief before I had finished the first bottle. I continued taking it all through middle life and am now a strong, healthy woman and earn my own living.”—Mrs. JANE D. DUNCAN, Forest Avenue, West Quincy, Mass.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

WEST BROOKLYN

The Forrester's annual tournament commences Monday night March 1st. The young folks participating in the C. O. F. play to be given in the opera house on St. Patrick's night are trying very hard to learn their parts so as to give the best exhibition of home talent drama every staged in West Brooklyn.

Geo. J. Montavon was in town transacting business on Tuesday afternoon.

G. L. Nelles of Dixon was in town visiting with his many friends on Sunday and Monday.

George Kessler was a visitor in West Brooklyn on Monday afternoon. We learn that Mr. and Mrs. F. J. Gallisath have purchased a residence property in Mendota and that they will make that city their home after March 1st. We always had hopes of having the folks locate in West Brooklyn where they could be near the farm. Suitable property there obliged them to go further away.

George Gehrig was a visitor in Steward on Monday, making the trip on the passenger, both morning and evening.

HEADACHY, COSTIVE, BILIOUS, "CASCARETS"

TONIGHT! CLEAN YOUR BOWELS AND END HEADACHES, COLIC, SOUR STOMACH.

Get a 10 cent box. Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver; delayed fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is reabsorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months.

spending Sunday in Harmon with their home folks. The 21st happening to be the event of their ninth wedding anniversary, a party of relatives entertained Mr. and Mrs. Long at the J. B. Long home on Sunday evening. They were presented with a very handsome set of silver as a remembrance of the occasion from those present.

John S. Derr was in town transacting business on Monday afternoon.

Tally Beale was down from Paw Paw on Saturday night conferring with local business men regarding the disposal of the tile factory located in West Brooklyn. It appears as though the co-operative plan of keeping the factory in existence is to drop through. It will be too bad to see the local factory wrecked and discontinued as much tiling is still to be done in the Flatts after the present drainage work is completed.

Mathew Maier was in town from Viola township on Tuesday morning. Charles Tienney of Joliet was in West Brooklyn on Tuesday looking after his landed interest down in the Flatts.

C. H. Henshel of Lee Center was over collecting taxes on Wednesday. He will be in our town again next Wednesday for the same purpose.

Chris Krahenbuhl was in town from Viola township transacting business on Wednesday forenoon.

John M. Bittner was calling upon his many friends in town on Tuesday.

John E. Busser was a business visitor in West Brooklyn on Wednesday.

Services are held on Wednesday and Friday evenings in St. Mary's church during the Lenten season.

William Wigum, tax collector of Brooklyn township, has received word for the return of his books about the usual time, March 10th, and consequently will be kept very busy gathering in the taxes up to that time. He reports collections so far coming slowly but looks for a rush towards the end of the season. He is at West Brooklyn on Mondays and Wednesdays, at Compton on Tuesday and Friday, and in Mendota on Saturdays.

George Fassig was in town transacting business on Tuesday afternoon.

Henry F. Gehant was in Dixon and other points during the middle of the week arranging the final details for some of the many real estate deals he has to close by March 1st.

Linn Johnson, the Viola tax collector, will be in West Brooklyn on Fridays, on Wednesdays he is at Scarborough, and on Saturdays at Compton.

YOUNG MOTHER EXPIRES; DEATH CLOSES ROMANCE

MRS. HERMAN KREUGER, FORMER DIXON WOMAN, LEAVES FOUR CHILDREN.

Elgin, Feb. 26.—The sad ending of a pretty romance occurred early this morning at St. Joseph's hospital when Mrs. Herman Kreuger died from the effects of blood poisoning following an attack of appendicitis and the birth of twins.

The husband, who is a foreman in Borden's Condensed Milk factory at Algonquin was left with four small children the oldest of which is three years of age.

Seven years ago Mr. Kreuger wrote his address on a can of condensed milk and placed a note in the box. Three months later he received a brief letter from a young woman at Dixon. Correspondence followed which resulted in their marriage. Mr. Kreuger furnished a pleasant home at Algonquin for his bride and they were among the popular young people of the village. They had two little children and on Monday, which was the anniversary of Washington's birth, the family was added to by the arrival of twins. Dr. H. H. Pillinger was called and found that Mrs. Kreuger was suffering from an advanced stage of appendicitis. Her condition was serious as symptoms of blood poisoning had already appeared. She was removed to St. Joseph's hospital in this city.

All four of the children are bright and healthy and the twins are a perfect pair. They have been named George and Martha Washington Kreuger. One weighed eight and three-quarter pounds at birth and the other eight and one-half pounds.

BIG STORE HAS 300 MEN IN ONE COMPANY

LONDON DEPARTMENT STORE PROVIDED COMPANY FOR WARFARE.

London, Feb. 14.—Correspondence of the Associated Press—One of London's oldest and largest department stores has 300 men in one regiment, the Queen's Westminster, at the front. These men are offered by men of the firm and heads of various departments of the store where they are employed. The founder of the firm, 56 years ago, in the first days of volunteering, raised a company which the firm put in uniform and maintained at its own expense. This tradition has been maintained ever since and the company maintained at the store has made an enviable record in the country's militia, taking many prizes by shooting and other military activities. Thirty-five members of the company served in the South African war and thirty-three returning safely, resumed their work at the store.

Enough employees volunteered to fill the company four times over at the outbreak of the present war and many unable to gain entrance into the regular store company entered other regiments. Since the store company went to the front it has been engaged almost constantly in the fighting.

POLISH STRONGHOLD TAKEN BY GERMANS

Teutons Storm Stronghold of Przasnysz, Says Berlin.

Berlin, Feb. 26.—The town of Przasnysz, Russian Poland, has been taken by storm by German forces, according to the official announcement given out in Berlin. The Germans took 10,000 Russian prisoners, over twenty cannon, a large number of machine guns and a very large amount of war material.

"In other engagements fought north of the River Vistula during the last few days," the official statement says, "we have taken 5,000 Russian prisoners. In Poland, south of the Vistula, the Russians advanced to Mogily, which is southeast of Bolimow, and occupied this position. Their forces in this movement outnumbered ours five to one."

Przasnysz is about fifteen miles from the East Prussian frontier, almost due north of Warsaw, and has a population of about 10,000.

TAKES OFF DANDRUFF HAIR STOPS FALLING

GIRLS! TRY THIS! MAKES YOUR HAIR THICK, GLOSSY, FLUFFY BEAUTIFUL.

Within ten minutes after an application of Danderine you cannot find a single trace of dandruff on falling hair and your scalp will not itch, but what will please you most will be after a few week's use, when you see new hair, fine and downy at first—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle, and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.

LONDON SUBWAY TO BE REFUGE IN CASE OF AIR RAID

PLANS CONTEMPLATED FOR PERMITTING POPULACE TO ENTER TUBES.

London, Feb. 22.—Correspondence of the Associated Press—Plans have been completed to permit London's vast floating population to find shelter in the underground railway tubes in the event of hostile attack. The city has hundreds of miles of subways, affording an ideal place for shelter from bomb or shell fire.

The availability of the subways was first called to the attention of the authorities some weeks ago by an enterprising citizen. Since that time detailed arrangements have been made for the regulation of traffic if a raid comes. Special telephones have been installed throughout the system, and all employees have been instructed as to how to act, and everything has been organized to prevent panic. The women and children will be shown preference, but all those who seek shelter may do so without purchasing a ticket.

In case of a prolonged attack it is suggested that subway traffic be suspended entirely and the system converted into a stronghold superior to the forts of feudal times.

ONE MAN KILLED BY RUDDERS

Wound Another When Attacked While Holding Up Saloon.

Granite City, Ill., Feb. 26.—Four men who attempted to hold up the patrons in a saloon here killed one man and shot and seriously wounded another. The men who were shot had attempted to wrest the revolvers from the robbers' hands. The wife of the saloon owner witnessed the murder of her husband.

The robbers escaped and are sought by a large posse.

Receiver for Coal Company.

Duquoin, Ill., Feb. 26.—The Hart Williams Coal company, which suspended operations at Benton a few days ago, has been placed in the hands of a receiver. The assets of the company are listed at \$400,000 and the liabilities at \$200,000.

WILL HOLD AUCTION.

London, Feb. 14.—Correspondence of the Associated Press—Owing to the scarcity of offerings, the great January fur sales usually held in London were abandoned. It has been decided, however, to hold the March auction as usual.

London is one of the world's greatest fur markets.

EXPECT NO MOVE OF WESTERN ARMIES FOR SEVERAL WEEKS

MILITARY EXPERTS SAY CONDITIONS WILL PREVENT EITHER SIDE ATTACKING.

DESCRIBES DEFENSIVE WORKS

Trenches, Breastworks, Artillery Stations, Observation Posts, Etc. Are Numerous.

London, Feb. 14.—Correspondence of the Associated Press—The military correspondent of London Times in a recent survey of conditions, said that there is little likelihood of any important advance movement by either side on the western front for a long time to come. Under the present conditions of weather and ground, with artillery which knows the range of every landmark exactly, he argues that a successful offensive is next to impossible.

"The district in which the British army is operating is practically a vast swamp," declares this observer. "The water stands on the stiff, slippery and holding clay, rendering the movement of infantry across country impossible. For weeks on end it has rained, and when it has not rained thick mists have enveloped the country. The deep trenches are filled with water and the necessity of standing in this has caused many casualties."

"It is only on slightly rising ground that life is at all supportable. The fronts of the rival armies are covered with a labyrinth of trenches. On both sides the front lines are often only observation posts. Acres of barbed wire cover most of the positions. In rear stretch many lines, zigzags and communication trenches."

"Breastworks have been constructed by both armies on the top of the ground to meet the difficulties of holding flooded trenches, while strong posts, defended villages and farmsteads, and other arrangements complete the positions. In the rear masses of guns of all calibres, so well concealed that they are practically invulnerable, and joined up by telephones to all advanced trenches, make a very strong framework for the defense."

"During all the months the British have occupied this district, only three direct hits have been made by German shells upon the British guns. An attack, therefore, has to deal with an intact artillery which knows every range to an inch."

"A forward trench may often be assaulted or mined by either side, or it may be knocked to bits by shells, or cleared by trench mortars and hand grenades, but a local success of this character has no consequences. The battling in front is largely done by the snipers and men in the sapheads."

"As for the Flying Corps, despite the weather, it has missed only six in the air since August. Not easily can any hostile strategic surprise escape these airmen."

"The British army is not accustomed to winter campaigning and it is not injured to it. Its campaigns have usually taken place in warm climates. It had its lessons to learn and it has cost something to learn them. In spite of this the army has stood the test remarkably well, and is probably in better health than any other, friendly or hostile, which is operating in the region."

CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How To Get Quick Relief from Head-Colds. It's Splendid!

In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh will be gone.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed up with a cold or nasty catarrh—Relief comes so quickly.

HERE'S POSTMASTER WHO CAN'T LOSE JOB

U. S. KEEPS R. M. GARMAN, FORRESTON, IN OFFICE AGAINST HIS WILL.

Polo Press: R. M. Garman of Forreston was in this city Wednesday. Mr. Garman seems to be in a unique position. He is postmaster of Forreston and has been for eight years, and feels that he has had enough. His term of office has expired, but no successor has been appointed. Consequently he is being retained in the position.

In the meantime he has been compelled to refuse certain business propositions because of the fact that he did not know when he is to be released. In the meantime, some of the democrats have petitioned that he be retained.

Mr. Garman says that if anybody wants the Forreston postoffice, he wishes they would apply for it in such a way that the authorities in Washington will pay some heed to them, as he is sure that he has had enough.

C. L. Brady of route 6 was in Dixon today.

INDIA TO STAND BY ENGLAND

King George Thanked for Devotion to Soldiers and Loyalty Is Pledged.

London, Feb. 26.—A dispatch from Delhi, India, says the legislative council of India has adopted unanimously a resolution expressing gratitude and loyalty to King George for his personal attention to the Indian soldiers at the front in France, as well as in the hospitals.

The resolution expressed the unswerving determination of the Indian people to support the war.

EGGS TAKE TUMBLE TODAY

Another big drop occurred in the
egg market this morning, four cents
being lopped off the prices that pre-
vailed the forepart of the week. This
reduction is due in part to the mild
weather starting the hens to laying
and to the market becoming stocked
up. The dealers are paying today
but twenty-one cents and are re-
tailing them for twenty-six cents.

Here's Dixon testimony:
The kind that can be investigated.
Miss Della McGrail, 507 College
avenue, Dixon, says: "My kidneys
were out of order and I had pains
through my back and sides. I used
Doan's Kidney Pills and they cured
me." (Statement given May 21st,
1912.)

On January 21st, 1915, Miss Mc-
Grail said: "The cure Doan's Kidney
Pills gave me has been permanent."

RAILROAD FARES

ADVANCE MONDAY

PERSON TRAVELING TO POINTS
IN ANOTHER STATE PAY
2 1-2 CENTS PER MILE

Beginning next Monday the in-
creased passenger fare to points in
other states will go into effect and
persons traveling to cities inside the
boundaries of another state will be
forced to pay a fare of two and one
half cents a mile for the entire dis-
tance traveled.

The new rate will mean that a per-
son going from Morrison to Clinton
will have to pay the increased rate,
or fifty cents one way, instead of 44
cents as at present.

Another angle of the new tariff is
that a person who should desire to
travel east of Chicago must pay the
increased rate between Morrison and
Chicago or else buy a ticket to Chi-
cago. The rate at present from Mor-
rison to Chicago is \$2.48, but per-
sons traveling east of that city and
into another state will have to pay
\$3.16 to Chicago if they buy a through
ticket.

Of course this will result in pas-
sengers buying tickets from here to
Chicago and securing their tickets
in that city for their destination, the
only hardship being the necessity
of having baggage transferred to an-
other depot instead of having it
checked direct from Morrison to the
place where the traveler is going.—

HOPKINS FIGURES IN SURETY CONCERN ROW

Former Illinois U. S. Senator Causes Aid's Indictment.

New York, Feb. 26.—Papers submitted to Supreme Court Justice Page, on which the court acted, revealed charges that Albert J. Hopkins, formerly United States senator from Illinois, who failed of re-election in 1909, and who is now president of the Illinois Surety company, has caused the indictment of D. Clinton Mackey, for many years general agent in New York for the surety company, charging him with committing perjury.

The papers bring to light the fact that Mr. Mackey, who has been one of the best known bonding men in New York for years, is now under \$10,000 bail on two indictments charging that he has failed to account for about \$5,000 of the surety company's money. Robert B. Honeyman, counsel for Mackey, asserts that he has proved by the cross examination of Senator Hopkins that one of two checks, which is the subject of the indictments, was deposited in the surety company's account. This led to the following statement by Mackey in the papers before the court:

"Before the indictments against me can be heard Hopkins will be indicted for perjury, as he should be."

Mr. Honeyman says that no effort will be made to induce the grand jury to take action against Senator Hopkins until the indictments against Mackey are disposed of.

TO LESSEN TETANUS DEATHS

Rockefeller Institute Throws Open Patents On Instrument to World.

New York, Feb. 26.—That loss of life through lockjaw will be greatly diminished is the belief of prominent surgeons, as the result of a new instrument, devised by M. S. J. Meltzer of the Rockefeller institute, the details of which are made public. Twenty-five of the instruments invented by Mr. Meltzer are to be presented to that number of surgeons of the various nations now at war.

The invention, it is said, will be of great benefit in lessening the casualties on the battle fields due to tetanus as a result of wounds. The patents on the instruments have been thrown open to the world and the warring nations are privileged to make them as fast as they please.

GARDEN TOOLS

Listen: Any able-bodied man can make his back yard—even if it is not larger than 30x40 ft.—worth a thousand dollars, \$1,000, if he is willing to spend a few hours a week for six months in his garden. That is, he can make it produce him as much or more than \$1000 would, if invested in good securities which would be \$50 or \$60. An average of 3 hours a week for 26 weeks will do it, which means you will earn at least 65c an hour. This is no theory, it is being done in hundreds of gardens.

You can lighten the labor very much by using Planet Jr. Garden Tools. Call for a booklet about them.
